

Welcome to the D'Angelos Web Site!

If you are having trouble logging in this may help.

**Login is only allowed with:**

1. A signed "D'Angelos Internet, E-Commerce and Systems Access Agreement"
2. You will be provided a Login and password after we have received the above.

**All users:**

The first time you attempt to login there will be a small program "Jargon Reader" loaded onto your PC. This is a simple plug-in like many other browsers plug-ins. This may take a moment or two depending on your Internet Connection.

You computer will need to have Active X controls enabled to utilize these Web Site services.

We highly recommend that you set <http://www.d-angelopbe.net> up as a trusted Internet site within Internet Explorer this is a much better way to ensure access without compromising security across the internet.

- On your Top menu select "Tools"
- On the pull down menu select "Internet Options"
- Click on trusted sites
- Click on Sites button
- Add <http://www.d-angelopbe.net>
- Be sure to uncheck Require Server Verification of HTTPS: ....

IF ALL the above fails this will help you to get access but may leave your Computer vulnerable.

**For Internet Explorer users:**

(AOL users will need to make these same changes in IE to affect their AOL Settings; change is NOT made on AOL screen)

- On your Top menu select "Tools"
- On the pull down menu select "Internet Options"
- A new window should open select the "security" tab.
- On the bottom of this window select the "Custom Level" Button.
- A new window should open, within this window enable active X Controls depending on your browser version this may be 3 to 5 selections.

Netscape Users have reported no Access issues at this time.

Mozilla Firefox does not support Active-X which is used by our site currently.

If you have any questions, suggestions or just want to drop us a line, please see the E-Mail links on our home pages. [helpdesk@dbgpaint.com](mailto:helpdesk@dbgpaint.com)

Thank you,

D'Angelos
